PROFILE

Passionate Software developer with hands-on experience in Flutter, Core Java, and web development. Skilled in building functional applications, responsive UIs, solving technical problems, and working effectively in team environments.

EDUCATION

Bachelor of Technology – Computer Science and Business Systems
Sri Sai Ram Engineering College

2023 – 2027
CGPA: 8.67

PROFESSIONAL EXPERIENCE

Internship Training – Sandhata Technologies Pvt. Ltd.

June 2025 – July 2025

- Built a C# CRUD application with MySQL backend handling 1000+ records and responsive HTML/CSS/JS interface, configured and hosted on Linux server environment.

Developer Intern – Sri Sairam Techno Incubator Foundation

August 2025 – October 2025

- Developed "Studio-V," a mobile video editing app powered by AI, to help students create assignments with integrated stock media.
- Designed AI functionalities such as smart crop, transition, voice to text, auto caption, and chroma key filtering to make content creation easy for students.
- Managed the video export pipeline using FFmpeg to make the video compatible with different devices.

PROJECTS

Visual Health Monitoring and IOT – Based Climate Adoption Mechanism for Mushroom Cultivation

- Built an edge-AI mushroom monitoring system using YOLOv8 on Raspberry Pi (ONNX-optimized) for real-time disease detection, integrated with ESP32-based IoT sensors and actuators for automated climate control.
- Developed a Flask + React dashboard with MQTT protocol enabling live monitoring, alerts, and remote management of growing conditions across multiple sensors and camera feeds.

Sahayatri – A Travel Companion App (Flutter, React, Go)

- Developed a Flutter-based tourism app for Smart India Hackathon 2025 enabling safe, culturally-immersive travel in Jharkhand with real-time route suggestions, direct connections to local artisans and homestays, and eco-tourism features.
- Built an administrative dashboard for Jharkhand tourism officials to monitor travel trends, track local economic impact, and analyze visitor patterns for data-driven policy decisions.

TECHNICAL SKILLS

- Languages:** Java, Python, C, Dart
- Frontend:** React.js, Flutter, Tailwind CSS, HTML/CSS
- Backend:** Node.js, Express.js, Flask, Firebase
- Databases:** MongoDB, PostgreSQL
- AI Tools:** GitHub Copilot, ChatGPT, Cursor
- Tools:** Git, Postman, Canva, Figma
- Cloud:** AWS, Google Cloud

CERTIFICATIONS & ACADEMIC ACTIVITIES

- Languages Known:** English, Tamil, Hindi.
- Certifications:** GUVI Certification on HTML & CSS, IIT Spoken Tutorial Certification on C & Java programming, CISCO Certification (Networking Basics).
- Activities:** NSS Cell Co-ordinator & Graphic Designer, IEEE HIZE 2.0 Design Team Co-ordinator,
- Achievements:**
 - Smart India Hackathon 2025 Finalist
 - Sai HackFest 2024 & 2025 Winner
 - Mastek Deepblue Season 10 & 11 Semi-Finalist
 - 2x Patent Published at Indian Patent Office (IPO)
 - Participated in IEEE XTREME 19.0 (24-hour Programming Competition)
 - Qualified GATE 2026 in Computer Science and Information Technology
